

### **CPD report 2023**

Compared to what I have to say on my role, this will be short and sweet. Our CPD officer, Breanne, unfortunately resigned earlier in the year due to conflicting commitments. So I will share what I know.

The webinars this year have been up and down in terms of attendance. However, we believe that these are a good way of providing CPD so these will be continuing in 2024 so look out for dates and topics. We would really have to have some of the members involved in presenting some of these so if you have a particular passion subject that you can go on about for an hour please let us know and we can discuss what is involved.

We have held a few education days this year, culminating into this conference. We held a symposium in Waiheke, POCUS study days in Auckland (and supported one in Palmerston North). What we would love to see is a greater spread of education across the country, we are here to provide support and guidance in organising and delivering these, and we know not everyone can make trips up to Auckland.

Next year we are in the process of organising a Symposium in April in Nelson so look out for news on this in the coming months, and of course our conference next year, which is in Auckland and combined with NZSA.

Thank you for attending education days during the year, if we don't get the attendance we can't justify organising these in the future.
