| | Panel: Niall Wilton, Aimee Clark, Ramanie Jayaweera, Elsa Taylor | | |
| 1715 - 1720 | Close | | |
| 1720 -1830 | Drinks and Canapes | | |

WORKSHOPS

Resus Workshop

Convenor: Caroline Zhou

The PANNZ Cardiac Arrest workshop involves hands-on simulation exercises and debriefing discussions designed to achieve specific objectives of the ANZCA CPD Cardiac Arrest Emergency Module. A certificate of completion will be issued.

Though most of the principles of cardiac arrest in children are similar to adults, there are some very important differences and challenges. There are also important differences in aetiology and conduct of cardiac arrest in the operating room environment.

Participants will care for children of different ages in a simulated operating room or recovery area, working in teams and within their scope of practice. These workshops will be accredited as 'Emergency Response Activities' by ANZCA.

Cost: \$150

Maximum Numbers: 16

Please note, this workshop will take place at the hospital, which is a 10 min walk from the conference venue.

CICO Workshop

Convenor: Paul Baker

The PANNZ CICO workshop will be an ANZCA approved emergency response module. It will be designed for adult and paediatric application. The conduct of the course will comply with ANZCA requirements. There will be didactic and hands-on components. There will be required reading prior to attending the workshop which will be sent to you approximately 1 week prior to the conference date. You will receive a certificate of attendance with approval code at the conclusion of the workshop.

Cost: \$150

Maximum Numbers: 12 per session

Talking to Children and Families – ABCs of Communication

Convenor: Paul Currant

This workshop provides a structured and effective way to talk to children and their families in peri-operative settings. Communication is largely a sub-conscious process and learning techniques which work at both a conscious and sub-conscious level enhances effective communication. Techniques covered will include how to establish rapport, how to use what the family presents to you, how to reframe negative suggestions and how to use simple language strategies. The simple techniques and strategies will give you many more tools in your communication tool box.

Cost: \$100

Maximum Numbers: 20.

Ultrasound Guided Vascular Access

Convenor: Peggy Yip

This 2-hour workshop will have an emphasis on theory and practical skills in paediatric vascular access. Instructors will present an evidence-based approach on device selection, insertion and care and maintenance for short and medium term peripheral and central vascular access. (provided by Peggy)

Cost \$150

Maximum Numbers: 12

NOTE: All workshops proceed based on minimum attendance being achieved.
